**ADDENDUM #1 FOR RFP PC#948 – ENVIRONMENTAL SURVEY AND TESTING**

**The following addendum to this Request for Proposal is hereby incorporated into the bid process.**

**The following questions were received in response to this RFP:**

1. To confirm, are we to submit two separate proposals; one on asbestos containing materials identification and testing and the other on lead based paint identification and XRF testing?
  - Please provide one proposal, but pricing for both asbestos and LBP testing, as specified in Exhibit B of the bidding documents.
  
2. Page 8 states:  
The selected firm or firms shall have qualifications and experience to perform the scope of work for one or more of the following described disciplines (A separate proposal must be submitted for each discipline you are applying for:
  - Asbestos Containing Materials Identification & Testing
  - Lead Based Paint Identification and XRF Testing
  - Air quality/Mold fungus testing

Please provide one proposal but pricing for the items for each discipline.

The following pages include detailed scopes of work for Asbestos and Lead, but there isn't a scope for Air Quality/Mold. Also Exhibit B – Proposal form does not include a Category 3 for Air Quality/Lead. Should there be a third category for Air Quality/Mold Testing?

- Please provide testing and remediation standards for mold, we understand there is not a current EPA standard

3. Can you please provide additional guidance on “a separate proposal for each discipline”? Does this mean if we are proposing for all categories we would need to return complete stand-alone proposals for each category? Which would mean 3 copies of all resumes and required exhibits.
  - You can submit one proposal but pricing for the items for each discipline. Please provide your organization’s background and abilities for each discipline you will be bidding.
  
4. Which firm was awarded proposal number PC771 in 2014?
  - Ambient Environmental and Global Environmental Training and Consulting were awarded PC771 in 2014.
