Effective January 1, 1991 Assembly Bill 2791 required applicants for demolition permits to comply with certain Environmental Protection Agency (EPA) and South Coast Air Quality Management District (SCAQMD) regulations concerning asbestos containing materials.

I certify, under penalty of perjury, that I have complied with the Notification requirement of the South Coast Air Quality Management District under Rule 1403. This rule requires that you notify the SCAQMD 10 days before you begin the demolition project. (A copy of the completed form is attached.)
