

HOUSING AUTHORITY OF THE
COUNTY OF SAN BERNARDINO

Request for Cable Installation

The Housing Authority does not provide cable television in units. However, you can have it installed at your own expense. Please be sure that the following guidelines are met during and after the installation:

1. You must have the cable installed by a professional contractor and you must notify this office immediately after installation so that we may schedule an inspection by our staff to assure that there is no violation of the Uniform Physical Condition Standards.
2. If cable has not been installed correctly and the Housing Authority needs to make any necessary repairs, you will be billed for the work
3. Upon vacating the unit, the cable must be removed and premises restored to the original condition. If these repairs do not meet Housing Authority standards, the repairs will be made to Housing Authority standards and there will be a charge for the work.
4. You may not drill any holes into or on any part of the unit.

If you have any additional questions regarding this letter, please contact our office between the hours of 9:00 a.m. and 4:00 p.m. Thank you for your cooperation.
